

**tylko** Needs are not mass-produced.  
And neither should furniture be.

job @ tylko

## FRONTEND DEVELOPER

tylko is a start-up company on a mission to redefine the furniture industry. We are a team of designers, developers and managers that combine our knowledge of design and technology to bring customized furniture effortlessly to everyone.

### Knowledge, Skills & Abilities:

- object-oriented JavaScript, HTML5 and CSS3
- responsive design and making mobile web pages
- 3+ experience with any popular high level library (angular, backbone, reactjs)
- UX/UI Design
- WebGL (or OpenGL), Three.js (or similar high level library)
- good working knowledge of git, grunt/gulp and nodejs tools
- passionate about design
- portfolio with design, fashion or luxury goods projects is a plus
- Adobe Creative Suite
- REST architecture
- unity3d experience is a plus
- experience in working with agile methodologies and in larger teams

### Responsibilities:

- create rich frontend application with REST backend
- evaluate and research latest frontend trends (angular 2.x, AR on mobile, flux)
- create WebGL applications (desktop and mobile)
- design and create marketing materials

### Your benefits:

- Work with world class designers
- Learn how a startup grows from the inside
- Be an early member of an innovative company

We're looking for people who are both committed to their work and excited for change. If you like to do things differently and are a restless innovator, tylko will feel like home.
