

job @ tylko

PYTHON/DJANGO DEVELOPER

tylko is a start-up company on a mission to redefine the furniture industry. We are a team of designers, developers and managers that combine our knowledge of design and technology to bring customized furniture effortlessly to everyone.

Our requirements:

- At least 2+ years of experience in Python (django preferred)
- Practical knowledge of revision tool (preferably GIT)
- Experience with rest api (consuming and exposing)
- SQL, preferably PostgreSQL

Your duties will require:

- Work on mobile and website backend (rest and server side rendering)
- Create services that integrates different systems with python backend (unity mobile app, grasshopper and few more)
- Resolve issues, fix performance bottlenecks and deliver high code/feature quality

Your benefits:

- Work with world class designers
- Learn how a startup grows from the inside
- Be an early member of an innovative company
- Become part of an interdisciplinary project

We're looking for people who are both committed to their work and excited for change. If you like to do things differently and are a restless innovator, tylko will feel like home.
